
Dear President and Council,

Received the latest SA. It is a great improvement from the past few issues. However I have a few comments which may improve the SA.

1. The text letterings are quite small. Maybe it is my age catching up on me.
2. On some of the pages, the colour contrast between the lettering and the background is difficult to read.
3. The SA is an official record of SIA. There are no photos with the text of the speeches by Immediate Past President and President. The historical conferment of Honorary Membership on Minister Mah also had no photos. You may wish to refer to the Hunter Douglas corporate newsletter 'make a difference' presentation on the SIA 41st Annual Dinner.
4. The SA is to profile the best of our members' works. Vikas Gore is not a member neither is he an 'Architect'. I am not against the publication of the Esplanade but perhaps the Registered-Architect-Director and SIA member should be profiled and Vikas acknowledged as a member of the team.
5. Future projects should acknowledge members of the architectural team. A group photo showing all members of the team will allow the contribution by younger members of the profession to be acknowledged.

Regards
Goh Chong Chia
